Principal's message:

It is my pleasure to welcome the student and faculty in the new academic year. We have inputs of myriad students from various strata of society hailing from nearby locations. Composite nature of admitted students from variety of villages makes college campus full of social diversity. This is our strength that makes the mind of students cosmopolitan. This cosmopolitan nature of the college is harbinger of 'unity in diversity'. It is our mission to impart value-based education to our students. Teaching only syllabus is not enough to build a holistic personality; it must comprise character and compassion to make a complete individual.

Our faculties are periodically trained and refurbished to enable them to guide students in multitudes of life. In the age of globalisation, new generation has to be equipped with all novel mental abilities to cope up with the new emerging challenges. Economic, social and political scenario is highly mutable compelling students to acquire novel ideas and knowledge. Considering the imminent need, our faculties are periodically taking the stock of the situations so that they can prepare the students in that direction.

I wish all the members of staff very good luck for the new academic year and the forthcoming new trends of the globalization. Contemporary generation tilted towards hedonistic modes of life sidelining the core values and academics in their lives. It's our genuine effort to optimize the academics, morality and hedonism to a balancing position.

This college is attempting towards this end. We shall march with these aims and objectives in future expecting cooperation and coordination from all stakeholders and society as a whole.

Nyashmaze

for Principal
Savitribai Phule B.Sc. V. B.C.A
Mahavidyalaya Vasmat.
